Maximize Your Investment with Well-Trained Personnel

## Emerson Training to Fit Your Needs

We invite you to attend one of our Micro Motion Product Training Courses. These courses use lecture and hands-on workshops to teach students to properly mount, install, configure, calibrate, troubleshoot, and maintain a variety of products.

### Micro Motion Coriolis Configurable Transmitters - Intermediate - 5710

This 1-day course consists of a blend of lectures and hands-on exercises that cover the installation, configuration, calibration checks and troubleshooting of Micro Motion sensors with the Series 5700 transmitters and peripherals. Courses held at customer specified sites can be customized to address specific transmitters and configuration tools. Public registration classes cover a broader range of equipment based on the needs of the attendees.

After attending this course, the student will be able to do the following:

- Be able to explain the principle of operation for how a Micro Motion Coriolis meter works and the function of the key components.
- Be able to apply the installation best practices for orienting, mounting and wiring the sensor and transmitter.
- Be able to configure the metering system to measure flow, density and temperature for their application.
- Be able to apply a step by step process to perform basic troubleshooting of the most common meter and process issues.

**Price:** \$700 per student

**Time:** 8:00 AM – 4:00 PM

Light breakfast & lunch will be provided

**Date/s:** December 14 or 15, 2021

**Where:** Emerson Automation Solutions

1647 Gramercy Road  
Salt Lake City, UT 84104
