

National Electric Code & Green Energy

Understanding the National Electrical Code, Volume 1 & 2:

- Introduction the NEC and code applications.
- 90.3 Code layout
- 90.4 Enforcement
- 90.7 Examination

Article 110 General Code Requirements:

- 110.3 Product examination and listing
- 110.9 Interrupting ratings
- 110.10 Short-circuit current ratings
- 110.14 Terminations
- 110.16 Arc-flash warnings
- 110.21 Marking requirements
- 110.26 Working spaces
- 110.28 Enclosure types

Introduction to Green Energy

- Introduction to the 2015 International Energy Conservation Code (IECC)
- Identify energy conservation requirements needed to design and build
