

Course Description:

4-hour overview of the significant changes for the 2023 National Electrical Code (NEC model code). This course will provide a Power Point presentation to meet the requirements for individuals who hold a State of Utah Electrical License needing CC (Code change) CEU credits. This training will cover Chapter 1 & Article 210 of the 2023 NEC.

Course Objectives:

The presentation will provide clarification of the significant changes to the 2023 NEC model code

Presentation will provide the 2023 NEC model code updates

Allow attendees will be able ask questions and have open discussion for what effect the code change is attempting to clarify and how it affects electrical installations.
