

Contractor's Update - Spanish

Instructor: Tim Savage

Course Provider: Ogden-Weber Technical College

Administrative Contact: Amanda Lessard

Phone: 801-612-4162

Email: amanda.lessard@otech.edu

Date of Courses: Fall 2023

Course Description

This six-hour course meets the Utah requirement for licensed contractor's continuing education credits. This course will cover both the core and professional education needed for relicensing. The first three (core education) hours will consist of a general review of the major changes to the 2020 ICC and National Electrical Code, a discussion of energy conservation such as solar energy and weatherproofing, as well as a review of safety standards. The last three (professional education) hours will consist of a review of bidding and price structure, insurance and liability, and blueprint reading.

Course Objectives

Participants will gain a/an:

- Overview of the changes in building and safety codes
- Overview of energy conservation
- Review of bidding and price structure
- Review of insurance and liability
- Review of blueprints

Course Length

6 Hours

Course Materials

Significant Changes to the 2020 International Residential Code

2020 International Residential Code

2020 International Green Construction Code

Attendance Requirements

To receive continuing education credit, students must attend all six hours.

Course Schedule, Activities, Assessments

Schedule	Topic(s) Covered
Day 1 (3 hours)	Core: Review the Building Codes (IBC, IRC, IMC, IPC, and NEC) and ADA requirements, review major changes in all building codes, and discuss construction safety, electrical safety, OSHA requirements, energy conservation, forensic documentation, and engineering.
Day 2 (3 hours)	Professional: Discuss bidding and price structure, insurance and liability, and blueprint reading.
