

Expect Excellence Apprenticeship Program

Continuing Education Submission Outline – Year 2

This submission outlines the Year 2 coursework for the Expect Excellence Apprenticeship Program, organized by semester (2A, 2B, 2C). Each class session equals 2 hours of instruction, which includes 1.5 hours of classroom learning and 0.5 hours of homework. Only eligible instructional content has been included for continuing education credit.

Course Title: Expect Excellence Apprenticeship Program 2A (Level 2 – Semester 1)

Total CE-Eligible Hours: 48 hours

Category	Hours
NFPA 70E Safety (Core subset)	0
Core (NEC)	48
Professional	0

Notes: Semester focuses on broad NEC applications with emphasis on wiring methods, equipment installation, special occupancies, and branch circuit/service requirements.

Course Title: Expect Excellence Apprenticeship Program 2B (Level 2 – Semester 2)

Total CE-Eligible Hours: 52 hours

Category	Hours
NFPA 70E Safety (Core subset)	0
Core (NEC)	52
Professional	0

Notes: Semester provides advanced NEC study covering commercial and residential branch circuits, feeders, grounding and bonding, overcurrent protection, and load calculations.

Course Title: Expect Excellence Apprenticeship Program 2C (Level 2 – Semester 3)

Total CE-Eligible Hours: 48 hours

Category	Hours
NFPA 70E Safety (Core subset)	0
Core (NEC)	10
Professional	42

Notes: Semester emphasizes motor controls and applied electrical systems, including transformers, generators, refrigeration, and motor operation. In-person lab sessions reinforce practical application.

Year 2 Totals

Category	Hours
NFPA 70E Safety (Core subset)	0
Core (NEC)	110
Professional	42
Grand Total	152

Note: This year of instruction is heavily NEC-focused. NFPA 70E Safety content may be supplemented from other program years or employer provided training.
