Join us **Wednesday, November 18th** for IHS Flow University's final class of the year, ***Steam Systems!*** Emphasizing practical insights on ***Preventative Maintenance***, ***Operation*** and ***Service***, this class will feature ***critical info*** every Steam Service and Facility Technician needs to know!

Complimentary breakfast, beverages, snacks & lunch are provided for all attendees, who also qualify for **8 hrs of CE/PDH credits**. ***Scan the QR code or click this document*** to sign up! **This class will require a ticket**. Tickets are free, however all attendees are required to register & present an E-ticket for admission.

COURSE TOPICS

- ***Working with Low and High-pressure steam***
- ***Steam boiler performance and optimization***
- ***Recommended service of your steam system components***
- ***Testing steam traps and proper trap replacement***
- ***Elevate your steam system to the NEXT LEVEL!***

It's going to be a great class! ***Seating is limited, so please reserve your ticket now!*** We look forward to seeing you in the **IHS Training Theater** at **2310 S 1300 W, West Valley, UT 84119**!
