About the Course

This course will review the 2015 International Plumbing Code changes related to grease interceptors, garbage disposals, thermostatic mixing valves and thermal expansions. We will also review seismic bracing and axial movement restraints. Attendees can also expect to briefly discuss bathroom groups and waste stack vents in drain-waste-vent systems.

Additionally, we will also discuss mechanical code for dryer vents and exhaust systems along with some chapter 6 International Mechanical Code duct installations and damper requirements.

Additional topics include: common code violations and concerns, new codes or rules being called out commercial occupancies, and multi-story residential construction.

About Tim Collings

Tim has been a Senior Inspector in Salt Lake City for 36 years and has been on the International Association of Plumbing Mechanical Officials (IAPMO) for seven years. He has been an apprenticeship instructor for 18 years and is a licensed Master Plumber and formerly licensed Plumbing & Heating Contractor.

Tim has served as Chairman of the UPC Technical Committee and is the former president of the Utah Association Of Plumbing And Mechanical Officials. He currently serves as the IAPMO Product Certification Committee and IAPMO Standards Review Committee Chairman. In addition to his work with IAPMO he's also a representative on the Utah Cross Connection Control Commission as well as the ICC Certified Building Plumbing & Mechanical Master.
