

## Inspector & Tradesman Core Hours License Renewal CEU's

### 2018 IPC UPDATES

This class offers a detailed look at the significant changes that have been made to the International Plumbing Code, the International Mechanical Code and the International Fuel Gas Code. As construction materials and methods change and improve, the code is modified to reflect acceptable options. This class will cover changes to the 2015 and 2018 editions of the code.

#### Instructor Profile

Thomas Hicken is an instructor for Bridgerland Technical College in Logan Utah where he has taught the plumbing apprenticeship since 2008. He has also taught numerous Plumber Continuing Education classes for Journeyman and Master Plumbers. He had his start in the plumbing trade in 2001 and has years of experience in commercial new construction, residential new construction and service plumbing giving him a well-rounded view of the trade and the applications of plumbing code. He received a Bachelor's Degree in Business Management from University of Phoenix in 2006, earned his Master Plumber license in 2008 and started his own plumbing business in 2010. He knows the challenges and successes of business ownership. Thomas is committed to improving understanding of plumbing code, and ensuring the trade has qualified workers going into the future.
