Utah 4-hour CE Plumbing Industry-Related Topics Sanitary Drainage System & Grease Interceptors

Instructor: Chris D'Amato

This class provides four hours of content on topics central to the plumbing trades. It is comprised of a comprehensive course of study on all aspects of residential and commercial sanitary drainage systems, followed by a survey of the most recent developments in grease interceptors.

Learning Objectives:

By the end of this class students will be able to:

- Optimize sanitation within sanitary drainage systems;
- Better advise clients on grease interceptor selection and installation;
- Follow all relevant rules and principles that govern the transit of effluent from fixtures to sewer; and
- Be more aware of the materials and technologies available.

Assessment:

Student's fulfillment of the learning objectives is verified through 8 in-text questions, with one question following each video or topic-based lesson. Students must answer each in-text question correctly to proceed to the next video or lesson in the class.

Syllabus:

3h 38m 47s

This class covers two related topic areas:

- 1) Sanitary Drainage Systems – the principles as well as the nuts and bolts of a well-designed system, with the following lessons:
 - Capacities; Maintaining Flow Rates Slope; Pneumatic Pressure & Backflow
 - Cleanouts,
 - Pumps & Interceptors,
 - Floor Drains;
 - Metal, Plastic, Clay & Concrete Piping; Thermal Expansion;
 - Combination DWV Systems & Wet Venting.
 - Vacuum Drainage Systems & Replacement of Sewers by the Pipe-Bursting Method
- 2) Grease Interceptors – a practical guide including Required Locations, Types of Grease Interceptors, Installation & Maintenance & Sample Codes and Standards

Course Details:

Requirements

Course completion is tracked through questions between the sections. The questions within slides do not, however, track progress. In order to mark the course as complete students will need to answer all of the questions attached to the course.

Upon enrolling in our course students will have access for 365 days. After this 365-day period they may contact us to have their enrollment renewed.

Any questions, concerns, or issues that arise while taking the class can be addressed by calling the contact number, writing to the contact e-mail, or sending a message through the “Suggestion Box” included in the course. Any message will receive a response within one business day, and usually within one hour.

After finishing all course content, the student will need to fill out the “Completion Questionnaire” so that their completion can be reported to the state.

Refunds:

All tuition and fees paid by the applicant shall be refunded if the applicant is rejected by the school before enrolment. All tuition and fees paid by the applicant shall be refunded if requested within three business days after the terms and conditions have been accepted (on the enrollment page). All refunds will be returned within 30 business days.

After the initial three business days have elapsed, AYPO will happily refund 100% of the purchase price for any course that the student has not yet begun.

Refunds of all or some portion of the purchase price may be available in situations where the student has already started taking the course, but not yet completed it. In general, for individuals who have already completed an entire course, refunds will not be available. Our office staff may be reached at (877) 724-6150 for more information about refund requests.

Attendance and Dismissal:

Students who enroll in this class are required to complete 100% of the course to receive credit. Since this class is presented online, enrolled students are not dismissed.
