

SILICA SAFETY

1HR CE

Course Description

Plumbers and Construction workers are exposed to respirable crystalline silica in over 600,000 workplaces each year. OSHA estimates that more than 840,000 of these workers are exposed to silica levels exceeding the Permissible Exposure Limit (PEL). This one-hour course reviews OSHA regulations and the safety codes surrounding silica safety.

SILICA SAFETY

Lesson 1 25 minutes

- Introduction to Silica
- PEL Limits

Lesson 1 Quiz

Lesson 2 25 minutes

- Employer Responsibilities
- Respiratory Protection

Lesson 2 Quiz

Lesson 3 15 minutes

- Respiratory Protection
- Exposure Control Methods

Lesson 3 Quiz

Course instructors will be available by email or telephone between 9am and 5pm Eastern Standard Time. They will assist you with questions regarding course content.

If you have any questions, please call us at 1-800-727-7104 or send an email to info@traininginstitutesedu.com. Email responses will usually be returned promptly, but guaranteed within one business day.

Student policies and procedures are always available by going to our website and scrolling to the bottom of the page (See Privacy and Refund Policy).
