2018 NFPA 70E Standards for Electrical Safety in the Workplace Correspondence – 8hrs Industry Related

Course Outline: Electrical Safety has been developed in an effort to give those in the industry a better understanding of a number of the hazards associated with the working on or near energized electrical equipment and the circuits and the manner and conditions under which such work may be performed. This class will make students explore “NFPA 70E, STANDARD FOR ELECTRICAL SAFETY IN THE WORKPLACE” as a means to comply with the electrical safety - related work practice requirements of OSHA.

Course Description for 2018 NFPA 70E for Electrical Safety in the Workplace Correspondence Course.

This is an 8-hour course, which includes a booklet containing 169 question and answers, developed by our training director that meets the minimum safety requirements for licenses types in the matrix.

These questions are generated from a test generator that contains 169 questions and scrambles the order of the questions, therefore, no two tests are alike. Students are required to obtain a score of 75% or better to receive a certification that they have passed the course.

Orientation: The Eastern Idaho Electrical JATC makes personal contact with everyone applying for this course. The student receives the ELECTRICAL SAFETY RELATED WORK PRACTICES BOOK and 2018 NFPA 70E Book. The Student is instructed to answer the questions and return the manual to the Eastern Idaho Electrical JATC.

Technology: The course is not available online, therefore there is no need for any equipment associated with this course, no computer is needed. This course was developed out of the ELECTRICAL SAFETY RELATED WORK PRACTICES book and 2018 NFPA 70E book. All questions and answers can be researched from this material.

Security: The students signs a certification statement stating that he/she is the person that completed the course.

Contact: Individuals may contact our JATC office via phone or email. Our Training Director is available via cell phone, after business hours for questions. The contact information for him is listed on the front inside cover of the test manual.

Interactive involvement: Individuals learn by personally doing the course. There is no time frame for completing the course.

Content: All course material comes directly from the ELECTRICAL SAFETY RELATED WORK PRACTICES Book and the 2018 NFPA 70E Book. This is the same material used in a classroom setting.

Instructor: The correspondence course is administered by James Smith.

If you have any questions, or if you require more information, please feel free to contact me at (208) 232-4300.

Sincerely,

James Smith (Training Director)
