## PROFILE

David began his career in the Electrical Industry with GSL in 1998. After earning his Journeyman Electrical License, Dave worked at the Kennecott Utah Copper mine site, where safety was a core value. In 2007 Dave began working as a Project and Safety Coordinator where he would train GSL Employees on proper safety practices on the KUC site. After seeing how successful David was in training safety principals he was promoted to the position of Safety Director. He has been overseeing and developing our Safety Program since 2012.

## RESPONSIBILITIES

David works to ensure that GSL Electric is compliant with all OSHA and MSHA regulations, policies and procedures. His efforts ensure all GSL employees are properly trained and can perform their duties in a safe manner with the support and dedication of their management.

## WORK EXPERIENCE

### SAFETY DIRECTOR — 2012 - PRESENT

- Develop company safety policies and procedures
- Develop/maintain GSL's MSHA training plan
- Train employees in MSHA's new miner, experienced miner, and annual refresher programs
- Train employees in the National Safety Council's first aid/CPR program
