

**Kent Peterson, PE, ASHRAE Presidential Fellow**

Kent Peterson is the Chief Engineer at P2S Inc, a 300-person consulting engineering and commissioning firm with offices throughout the western United States. He has extensive experience working in the building and infrastructure industries. He provides leadership, inspiration, and technical direction for the firm's engineering practices. Mr. Peterson is chair of the 2022-2023 ASHRAE Building Decarbonization Task Force, past chair of the ASHRAE Building Decarbonization Position Document Committee, and recent co-chair of the GSA Federal Building Decarbonization Task Group.

Mr. Peterson is an ASHRAE Presidential Member, ASHRAE Distinguished Fellow, and recipient of the ASHRAE F. Paul Anderson Award. He is a frequent author of articles and papers and has made presentations to governments and professionals worldwide on improving building sustainability.
