nttinc.com

Intro

Kenny's industrial experience began in the brewing industry and ranged from construction to fabrication with Kenny becoming certified as a Multi Craft Specialist and obtaining his Master Electrician License.

Kenny's experience includes teaching at the IEC apprenticeship school and local community college.

Kenny was also integral in the development and implementation of an NFPA 70E program collaborating with over eleven other sites.

Outside of the classroom Kenny can be found in the great Colorado outdoors, and coaching softball.
