

## Intro

Michael Bryer's maintenance background is specifically in facilities maintenance. His career began more than 35 years ago in Pittsburgh Pennsylvania while working in healthcare. Michael was an electrician working in a Pittsburgh hospital maintaining equipment and systems that includes fire alarm, nurse calls, generators, pumps fans and motors. He spent 17 years working in healthcare before changing to higher education. He was a maintenance supervisor at Duquesne University in Pittsburgh for 12 years before becoming the electrical supervisor at Penn State University.

Michael switched gears again in 2017 and began teaching electrical technology at a trade school in Pennsylvania. He found a passion for teaching and then began ILT (Instructor Lead Training).

Michael travels extensively while teaching for NTT and always enjoys meeting with and instructing new people.

Michael and his wife have relocated from snowy Pennsylvania to the more temperate climate of the Carolinas where they enjoy Jet Skis, Kayaks and beach time.

## Professional Experience

### Triangle Tech

- Electrical Instructor

### Penn State University

- Electrical Supervisor

### Duquesne University

- Maintenance Supervisor

### UPMC Shadyside Hospital

- Electrician
- Commissioning agent for new construction

### NTT instructor beginning in 2021

- NFPA 70E Electrical Safety
- NFPA 70 National Electric Code
- NESC National Electrical Safety Code
- OSHA 1910.269 Electrical Safety

## Education and Training

- Associates in Specialized Technology (Electrical) Dean Technical
- BSPS Duquesne University Leadership and Communications
- CESC Certified Electrical Safety Compliance Professional

- CMRP Certified Maintenance Reliability Professional
- CEFM Certified Education Facilities Professional

## Industries Served

- Automotive                      Aerospace
- Water/Waste Water            Mining
- Pharmaceutical                Government
- Healthcare                      University Campus
- Manufacturing                 Utility
- Food/Beverage                 Military
