

Kelsee York is the MS4 Storm Water Program Coordinator. She has been with DEQ since June 2018 and formerly served as the Construction Program Coordinator for a year. Kelsee first worked in DWQ's Monitoring Program where she collected water quality samples across the state of Utah. Kelsee moved to the General Permitting team in January of 2021. Prior to taking over the construction program, Kelsee conducted inspections for the Municipal, Industrial, and Construction Programs at DWQ. Before joining DEQ, Kelsee graduated from Macalester College with a Bachelor's Degree in both Geology and Environmental Studies.
