## Intro

Robert, with over four decades of experience in the electrical industry, demonstrates a commitment to ensuring compliance with electrical codes and regulations. He has also been instrumental in promoting alternative and renewable energy solutions. His extensive experience also includes significant contributions to major projects such as the White Plains Hospital Emergency Room Expansion in White Plains, NY, and the Greenwich Hospital Expansion in Greenwich, CT, highlighting his proficiency in managing diverse commercial and industrial installations.

With fluency in Dutch and conversational Spanish, John embodies effective communication and leadership, enabling him to navigate complex projects and foster collaborative relationships across diverse teams.
