

### **Suzanne Hoskins Bio:**

After working as a professional in the hospitality business for 20 years and eventually owning a successful home staging business, Suzanne and her husband, John, purchased a water/fire/mold restoration franchise, Rainbow Int'l Restoration in 2008. In 2012, they started a separate business, Asbestos Abatement of Utah. The overwhelming success of Asbestos Abatement of Utah allowed them to sell the restoration franchise in 2023 and solely pursue their asbestos business.

Suzanne focuses on sales, customer service and marketing, while John works in the field managing the crews and technical oversight. Asbestos Abatement of Utah performs residential and commercial projects. Their services include inspections, testing, consulting, demolition, and abatement. Their company is a certified firm in the states of Utah, Idaho and Wyoming.
