

RESNET: Paulette McGhie Program Manager

For over 20 years Paulette has demonstrated expertise in the HERS® industry with significant experience in California, Nevada and Utah. She has a vast understanding of residential construction, energy codes, energy compliance, Above Code Programs, Title 24, International Energy Conservation Code, utility incentives, HERS H2O, WaterSense, Net Zero Energy Ready Homes, and Energy Star versions 3.1, 3.2, and CA 3.4.

Working with production builders, Ms. McGhie was able to successfully contract HERS testing and above code program certifications in Northern California, Southern Nevada and

Utah, where she worked with a HERS Rating Company.

2009 – 2012 Paulette worked for Utah Clean Energy as part of the Utah Building Energy Efficiency Strategies with key Stakeholders, to improve the energy efficiency of Utah Buildings. Outreached on adoption of the most current energy codes with SLHBA & provided outreach to Utah Jurisdictions on the importance of inspecting Energy Code Measures.

2023 – 2025 Paulette works for RESNET as Program Manager promoting HERS Index & HERS H2O Programs. Also assisting States in adopting ERI Method using scores that help to reduce energy use and promotes carbon reduction.
