

Bob Dusin

Bob grew up on a wheat and cattle farm in western Kansas and earned a degree in Civil Engineering from Kansas State University. In the early part of his career he worked as a Construction Project Manager, where he guided the construction of the world's tallest concrete building, the 70-story 311 South Wacker Drive in Chicago, Illinois. He has also co-owned a construction company and served as the Human Resources and Training Director for a national construction firm.

Leaving the corporate world 20 years ago, Bob started his own business focusing on training, coaching, and facilitating leadership workshops for organizations nationwide. In addition to his work in organizational leadership development and coaching, Bob is a keynote speaker and presents at numerous seminars, conventions and expos, including World of Concrete, on a wide range of performance and leadership topics.

Bob has performed as a professional improviser for over 25 years, having studied at the Second City Players Workshops, and is also a professional voiceover and video actor. When he is not working, he enjoys time with his wife Beth at their home in Kansas City.
