

## **TAD OGDEN**

Office Manager – Industrial Hygienist

### **HEALTH AND SAFETY SERVICES**

2037 South Main Street, Salt Lake City, Utah 84115

(801) 355-1456, Fax 355-1557

Mr. Ogden is a partner at Health and Safety Services. He presently serves as the office manager, a senior industrial hygienist, and senior project manager. His ability to work in a team setting within the firm as well as to cultivate and support close personal working relationships with our valued clients has lead to the successful completion of numerous projects. His areas of expertise include:

- **Industrial Hygiene:** Providing clients with indoor air quality investigations, airborne chemical exposure monitoring, ergonomic investigations and task redesign, noise and vibration evaluations, and ventilation system measurement/evaluation/design;
- **Environmental Consulting:** Environmental Site Assessments and Property Condition Assessments;
- **Asbestos Consulting:** Including areas of construction management, inspection and asbestos material management in public, commercial and school buildings. Mr. Ogden has been involved in all aspects of asbestos management including inspections, making management recommendations, producing Operations & Maintenance Plans, abatement project design & monitoring plans, producing and maintaining AHERA Management Plans, and teaching appropriate risk management of asbestos issues to clients, employees and professional continuing education classes.
- **Lead (Pb) Consulting:** Over the past several years, due to public concern for lead exposure and changing lead regulations, he has become more involved in inspecting and risk management in residential and occupational settings. Mr. Ogden's services have centered around inspections for lead-based paint, risk assessments, and helping clients make wise management decisions based on risk assessments and exposure monitoring during abatement, lead material handling, construction activities and residential remodeling projects.
- **Safety Consulting:** While the main thrust of our company has been industrial hygiene, we routinely assist our clients with classic safety issues. Working with our customers in the manufacturing, construction, retail, and education fields Mr. Ogden has been responsible for inspections, monitoring, training, and dealing with regulatory issues and OSHA regulators.
