

JEFF PARK

PROFILE

I have been in the plumbing industry for 18 years. I have an admiration for the trade and a fondness of the construction industry as a whole. My desire is to always be instrumental in keeping the plumbing trade and my industry at a top level. To achieve this, my goals include: being a honest businessman; provide quality and professionalism in my plumbing and business services; and educating those around me that are interested in being a part of the plumbing world.

EXPERIENCE

PONDS PLUMBING - OWNER NORTH SALT LAKE, UTAH 2003 TO PRESENT

I am one of three business partners that own Pond's Plumbing and Heating. We have approximately 30 employees. We provide plumbing and heating services for residential and commercial construction projects. We also have a plumbing and heating service department specializing in repairs. We also provide various heating systems such as Radiant/Hydronic heating, Solar, and Geothermal heating systems. I am the head plumbing estimator, project manager for commercial and remodel projects, and the head of the service department.

BOARD MEMBER, UTAH BUILDING CODE COMMISSION-PLUMBING ADVISORY COMMITTEE SALT LAKE CITY, UTAH 2010 TO PRESENT

I am on the Plumbing Advisory Committee for the Utah State Building Code Commission. We are responsible for reviewing the current and future plumbing code that is adopted, or in review to be adopted into state statute / law. I sit on the committee with engineers, other plumbers, building inspectors, water department representatives and health department representatives.

PLUMBING PROJECT MANAGER, COMFORT SYSTEMS SALT LAKE CITY, UTAH 1997-2003

I worked as an estimator for plumbing projects and was the project manager and manager for the residential plumbing department in charge of 7-10 plumbers.

PLUMBING APPRENTICE, PONDS PLUMBING NORTH SALT LAKE, UTAH 1994-1997

I worked as an apprentice plumber installing plumbing systems working along side lead / journeyman plumbers. Learned plumbing code and systems.

PLUMBING APPRENTICESHIP INSTRUCTOR TAYLORSVILLE, UTAH 2002-2010

I was the lab instructor for the apprenticeship program for all 4 years of students. I educated students in how to perform their projects to be able to prepare to take the Utah State Journeyman Plumbers exam. I was a plumbing apprentice instructor as a sub, and also a full-time instructor in 2009 and 2010. I was also in charge of teaching a class of 15 students the Utah State plumbing code to aid them in preparing to take the journeyman plumbing exam to get their Journeyman Plumbing state license.

EDUCATION

Salt Lake Community College , Plumbing Apprenticeship— 1994-1998

SKILLS

I am knowledgeable in various areas of computers, including spreadsheet systems like Microsoft Excel, Apple iWorks-Numbers, word processing documents like Microsoft Word and Apple iWorks-Pages.

I am knowledgeable in code compliance issues relating to the IPC 2009 plumbing code. I can aid in design of a plumbing waterline and/or drainage system.
