

Curriculum Vitae

Doug Black

Doug Black has 32 years of experience at Alcoa, Newburgh, IN, spanning smelting and rolling, with extensive background in electrical safety, process control and power distribution, and power system maintenance.

He has been instrumental in a broad range of capital projects, as well as plant operation and maintenance.

Doug is a registered professional engineer in the States of Kentucky and Indiana, and holds a degree in electrical engineering.

He has led the plant-wide Electrical Safety Lead Team for 11 years, with a wide range of experience across Alcoa Corporate in safety program auditing and writing, incident investigation and arc flash hazard assessment, and reduction techniques.

Doug led the efforts to bring the Newburgh facilities into compliance with NFPA 70E and maintain that position.

As a member of the Alcoa Safety Committee, Doug helped develop the training programs and associated Alcoa Safety Standards for the corporate electrical safety program.
