Expertise and Experience

- Thirty years experience in providing vocational assessment and counseling to a large variety of individuals from a wide range of socio-economic, cultural, and employment backgrounds. Identified employment related barriers and assisted in obtaining intervention services from appropriate service providers. Assisted injured workers in formulating and implementing timely return-to-work plans.
- Facilitated/presented job seeking skills, career development, employment competency, multi-cultural workshops and seminars to a variety of target populations.
- Conducted on-site job analysis to ascertain appropriateness of targeted occupation for injured worker. Provided job development and identified prospective employers consistent with job seekers' vocational goals.
- Monitored progress of individuals whose rehabilitation plan called for educational and skills re-training.
- Provided interpreting and translation (English-Spanish) for all rehabilitation services, including MD appointments.
- Provided case management services in Mexico, including coordination with medical providers.
