

Curriculum Vitae

John D. Aeiker, PE, CSP

John D. Aeiker, PE, CSP is currently the Principal Consultant for Aeiker Safety Associates, LLC specializing in Electrical Safety, Process Safety Management, and General Safety Management Systems. He recently retired from E. I. DuPont de Nemours as the Safety, Occupational Health, and Environmental (SHE) Manager for the Crop Protection business unit and the Electrical Safety Competency Leader for the North America Region of DuPont Operations. He received his BSEE degree from West Virginia Institute of Technology, Montgomery, WV, in 1973.

He has worked in engineering roles for three different businesses (oil refining, water/wastewater consulting, and pump sales and service) prior to being employed with DuPont. While with DuPont, he held various professional and management roles in operations, maintenance, business, research, and engineering.

He has been a safety and occupational health professional for the past nineteen years and is a Professional Engineer and a Certified Safety Professional. As the Electrical Safety Competency Leader for the North America Region of DuPont, he represented that region on the DuPont Corporate Electrical Safety Team and led significant improvements to the corporate electrical safety program. He is a Senior Member of IEEE and has co-authored, presented, and published papers on electrical safety for the IEEE Petrochemical Industry Council and the IEEE Industry Applications Society Electrical Safety Workshops.
