

About Us

Our Core Values are fundamental to who we are as an organization, they provide without question the standard of behavior by which we conduct business. With 25 combined years of Construction Safety Experience ***Awareness is Key***, is prepared to help you gain a clear understanding of your Current Safety Culture and to provide you with a Safety Roadmap to achieving your Safety Goals.

Jill Shupe

I know that Safety Program Development, Site Specific Safety Training and Jobsite accountability through detailed inspection can help your Company improve their Safety Culture. Let me share current Client success stories and discuss how *Awareness Is Key* can help your Organization.

I have 8 years of construction industry experience, 6 of those years have been in roles dedicated to Safety. I have had the opportunity to work in a variety of frontline construction positions from a Lead Foreman for a reclamation crew on the Kearn River Natural Gas Apex Expansion project to providing Railroad Services at the Soda Ash Mines in Central Wyoming and Operating Equipment on the Echo Dam Seismic Re-Modification Project. These opportunities have helped me to understand how to effectively communicate with every level of employee and how to make safety personal.

As the Founder of *Awareness Is Key, a Safety Solutions Company*; I have spent the last 4 years conducting Hazard Analysis, documenting Jobsite Inspections and Safety Program Development in an effort to improve our Clients overall Safety Performance, Insurance Ratings and Safety standing with OSHA. I am an Outreach Trainer for OSHA General Industry and Construction. I have had the opportunity to teach continuing education courses for the Associated Builders and Contractors (Utah Chapter). Develop and conduct Toolbox meetings on a wide variety of projects for a variety of clients. Some of my recent client projects include: Salt Lake City Airport Redevelopment Program – doTERRA Corporate Campus Expansion – The New Utah State Correctional Facility – Wallace F. Bennett Federal Building – Davis Junior High School Number 17 – Weber State Stewart Stadium Complex.

Chelly Heninger, CHST

I am passionate about employee safety; I know that employees do NOT have to get hurt at work! Let us help your Company improve their overall safety performance as we together *Educate, Empower* and *Engage* your workforce in making better safety decisions. As we sit down with your leadership team lets discuss how *Awareness Is Key* can help your team achieve your Safety Goals and receive a return on your safety investment.

I have 19 years safety / risk management experience in the Heavy/Highway, Civil Construction and Mining Industries. These opportunities have afforded a wide variety of experience ranging from Department of Transportation projects with values ranging from \$10 million to \$250 million dollars to a variety of large Oil Refinery Projects as well as managing safety for several large metal/non-metal Mine Projects at Rio Tinto's Kennecott Copper Mine. I have had the opportunity to lead the safety integration of a large acquisition with three separate companies; Leading 27 safety professionals and 2500 employees. Under my leadership we successfully reduced their OSHA recordable rate in 12 months from 3.49 to a 0.95. Most recently I am excited to have joined *Awareness is Key* as Co-Owner.
