

INSTRUCTOR PROFILE

Duane Swanson

PROFESSIONAL EXPERIENCE

Mr. Swanson has over 40 years of electrical experience and many years of formal and informal on-the-job training in the electrical field. After completing his electrical apprenticeship and working as a 1st class electrical & instrument mechanic at New Jersey refineries, Duane led a long string of complex projects in Wyoming and the Gulf of Mexico.

Much of his significant experience was gained through a successful 34-year career with Chevron, where he received extensive training in electrical maintenance & safety, oil & gas operations, project management, and industrial training. Before his retirement from Chevron, Duane wrote the Electrical Safe Work Practice for the Gulf of Mexico and overhauled the lockout/tagout process for the company.

Since retiring, he's worked as a safety trainer and inspector ; in November 2017 he began teaching electrical safety courses for NTT.
