

## SCHEDULE A ADDENDUM TO THE SERVICE LEVEL AGREEMENT BETWEEN E-UTAH AND WEBER STATE UNIVERSITY

This document will serve as the latest Schedule A addendum to the Service Level Agreement with the Network, e-Utah, adding Weber State University transactions or services to the Network, subject to Board approval.

### AGREEMENTS

1. Transaction By the Network Manager Weber State University authorizes the Network Manager, to enable electronic payment of tuition and/or registration fees online, in accordance with this Agreement. Description of Service is as follows:

This service will allow Weber State University students to pay tuition and/or registration fees using the Network's secure payment-processing infrastructure for online transactions. This infrastructure is comprised of both an online automatic debit and real-time credit card payment processing system.

This service will also provide an administrative interface that would allow Weber State University to access any or all portions of the log and transaction data for auditing and accounting purposes.

2. Record Classification and User Access Weber State University represents to the Network Manager the record classification: \_\_\_\_\_ Private Records \_\_\_\_\_

The Network Manager certifies that they will offer the following security and authorization for access to the application outlined above:

All online financial transactions using the Network's payment-processing infrastructure are conducted through a secure server using a Secure Socket Layer (SSL) connection. This technology ensures secure data transmission and uses a standard public-and-private key encryption system that encrypts the customer's submission of private financial data before it leaves their web browser. The data remains encrypted throughout transmission until it is safely received within the confines of the SSL where it is decrypted and processed. This SSL connection will exist only between the Network and Weber State University.

The Network will also provide Weber State University with a secure administrative interface that will authenticate and log the activity of individual University personnel.

3. Record Supply Costs and Computer Programs. The Network Manager shall be responsible for costs and expenses in providing secure electronic transactions to Users, including without limitation, the cost for purchasing or developing and maintaining all programs used to interface with the Weber State University computer programs. Computer programs used by the Network Manager shall:

- a. Protect information from unauthorized access;

**SCHEDULE A ADDENDUM TO THE  
SERVICE LEVEL AGREEMENT BETWEEN THE NETWORK  
AND WEBER STATE UNIVERSITY**

PAGE 2 of 3

- b. Supply services to Users on a timely basis in an accurate, understandable and logical format acceptable to Weber State University;
  - c. Be tested by the Network Manager and prototyped for Weber State University review and approval before it is offered to the public.
4. Use messages. If required by Weber State University, the Network Manager shall cause the Network to require Users to signify online that they will comply with any restriction on use of the records required by law, as amended from time to time. Such user agreement will be in the form of a use message displayed online, with a required positive response (which is captured in a log file) prior to the User being permitted to further search or view the record.
  5. Subscriber Agreements. This service shall not require subscriber agreements.
  6. Transaction Logs. Weber State University shall have access to the Network's Transaction Log for the purpose of auditing the collection and/or dissemination of Weber State University transaction records. Unless otherwise specified by Weber State University, this Log shall contain the following data: User name, transaction data and time and type of inquiry/transaction.
  7. Payment and Collection.

A Network Charge is requested for Tuition and/or Registration Payment Processing. A subscription to the Network would not be required to access this application.

- a. Collection: The total cost to the public for tuition and/or registration shall be variable and set by Weber State University. The Network Manager shall be responsible for the processing of payments from Users according to the chart below. No additional amounts may be charged by the Network Manager for the identified services without the prior written agreement of the Weber State University and the Network Board. The fee charged by the Network represents a fee for development and support services. The Network hereby represents to Weber State University that it believes the following charges will fairly and reasonably recompense the Network Manager in order to make the Master Contract a success:

<u>Agency/Project/ Priority</u>	<u>Statutory/Tuition Fee</u>	<u>Network Charge</u>	<u>Total</u>
1.) Tuition Payment Processing	\$Variable	\$0.50	\$0.50 + tuition

- b. Payment: The registration payment processing system facilitates real-time authentication of registration and/or tuition payments. The Network transaction charge will be added to the total order and will be authenticated at the time of transaction. Proceeds from completed credit card transactions will be directly deposited to the agency account through the credit card processor in real time or in a nightly batch. All revenue collected through the automatic payment system will be processed and deposited into the agency account within forty-eight hours from the time of transaction. The Network will invoice the agency on a monthly basis for the Network transaction charge.
8. Records and Finances. All Network documents and records maintained by the Network Manager relating to Weber State University records shall be available for inspection, auditing and copying by the University or other authorized representatives.
